

KSA-7 - Performance standards and code requirements for air barrier systems

Credits: 1.0 HSW/SD AIA/CES Learning Unit

Description: This program provides an in depth look at the different systems to keep air and moisture out of the wall cavity and an understanding of the impact on the environment, building owner, and occupants provide by an air barrier system. The presenter will discuss the performance test standards of an air barrier material, component, assembly and system along with codes requirements relating to air barrier systems. www.stscoatings.com
